

# Solutions for every need, for every customer.

Eversource is the #1 Energy Efficiency Provider in the Nation\* because we work hard to find energy solutions that work for you. Whether it's businesses big or small, communities, or individuals, we want to help all our customers find ways to save.

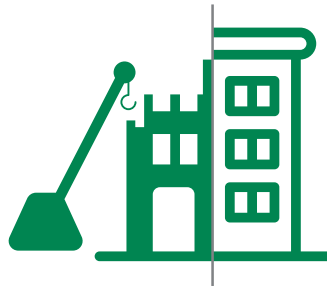

## Lighting

If you're looking to reduce your lighting costs, we'll help you save with efficient, long-lasting LED bulbs.

## Heating and cooling

If you want to save on heating and cooling, we can optimize your HVAC systems with advanced temperature controls.

## New or existing buildings

We'll work to provide cost-effective energy solutions for existing buildings, or help you plan new buildings to be as efficient as possible.

---

Our energy experts work with customers to turn ideas into action, because the cleanest energy—and the cheapest—is the energy you don't use. Every year, we help our customers save **1 billion kilowatt-hours of electricity** and **9 million therms of gas**. That adds up to a total savings of **\$210 million in reduced energy costs**.
